Crypto Diamond Coin

CDC

Decentralize ecosystems to create a digital currency connected to blockchain for your business assets as loyalty points and rewards to business partners and fundraising for your business.

1. Project Summary

The problem at this time is still a lot of people who do not understand what is Blockchain and what is its usefulness,

And here we are opening their chances to expand their business and brilliant idea into a digital currency asset which later becomes a tool to get an investor for their business.

CDC is an ecosystem platform where you can create a digital currency connected to Blockchain.

You can make a digital currency (TOKEN) application for your business to the CDC team as a loyalty points or award to business partners and fundraising for your business.

You can also make a pre-sale request for your token to the CDC team and the team will instantly check your request and process it.

if the your request is good enough the team will take part in your project by promoting your Token Pra-sale and can also be traded on the DiamondExchange later on.

What is the glory and greatness of the CDC?

CDC is the powerful digital currency that is decentralized with Blockchain.

1.CDC has a very good and powerful project uses Blockchain technology.

2.CDC will be traded in 10 big markets and surely the price will be very fast rise later.

3.CDC web Exchange which is named Diamond Exchange.

4. CDC mobile Apps Diamond Exchange and Diamond Wallet.

5.CDC web and Apps online shop.

2. Project of Crypto Exchange

Diamond Exchange is a crypto trading market where all types of crypto can be traded there and you can also pre-sell on Diamond Exchange.

And specifically for those who make tokens through us can be directly traded on Diamond Exchange.

And CDC is the main crypto exchange tool on Diamond Exchange and definitely CDC prices will continue to rise drastically and in predicting the price of one CDC is \$ 3 and will increase again after Exchange mobile apps project and wallet has been launched the price will rise again to \$ 5-8 is real.

3. Creating a Blockchain Project

Creating for token project.

Make a submission of your token project and then send it to us.

Next we will check your submission and process your request as soon as possible.

If your project we think is very good we will also participate in your project.

We will also assist in the promotion process.

And your token is instantly listed on Diamond Exchange.

4. Project mobile and web applications.

In this project we will create a smart phone application that is connected with CDC, one of its projects is CDC Exchange application and CDC Wallet app.

The CDC Exchange application is an application to make it easier for you to control the trading of your crypto assets anytime and anywhere you are at that time.

The CDC wallet app lets you control all your crypto asset sending and receiving easily and of course with high security to keep all your crypto assets high secure.

And we convey one of our projects also later is the marketplace applications such as Alibaba amazon and ebay and the currency used is CDC.

5. Marketplace project.

we will create apps like alibaba
amazon and ebay.

which provides trade products such as
fashion apparel, shoe accessories
bags and beauty products such as
cosmetics as well as other electronic
products.

the main payment tool is CDC
those who want to buy products can
use dollars converted into CDCs or
buy in exchange and then send them
to their CDC wallets that connect to
market applications.

Since the CDC is used as the primary
means of exchange required by many
people then the price will increase
very high in the future and an
estimated price of one CDC \$ 12.

So take your chance to have a CDC in
our pre-sale.
